"THE HOME OF GREAT FRAMING"

Bring your Photos Alive

Canvas Printing

The benefits of choosing Fix-a-Frame to print your photos on canvas.

Your image will be specially retouched and printed by professionals using the highest quality inks on canvas providing you with an enduring artwork.

We use the latest software and hardware to produce your prints. Ink which produces vivid results (Epson K3 Ultrachrome), high grade poly-cotton canvas specially treated and designed to stay stretched and flatter longer.

Our finished prints are sealed with a coating of UV resistant varnish, sealed on the backing with a light-weight and acid-free foamcore board, D rings and stainless steel wire provide a secure and durable hanging solution. Bump-ons are added to the corners to promote air circulation which also helps with prevention of mould.

Professional Digital Restoration and Retouching Services

We understand the value of your loved ones, the photographs you clicked of your children, your first car, your grandma and your first house. With our photo restoration services these memories live on.

RESTORATION

Return your damaged, blurred and dull photos to life. Digitally restore your faded colour photos.

MONTAGE

Create a brand new picture with an artistic combination of your digital photos.

COLOURING

Transform your black-and-white photographs into coloured ones.

ARTISTIC TREATMENT

Make your traditional portrait look like a real work of art and let your images ooze style and unique delicacy.

RETOUCHING

Make your ordinary photograph look like a glamour picture on a glossy fashion magazine cover.

PHOTO GIFT

Make a memorable present for your parents and friends; a unique work dedicated to family events.

ENHANCEMENT

Adjust the colours of your photo, saturate with light, make it look brighter and clearer and reduce digital image noise.

COSMETIC MAKE-UP

Improve an appearance without a surgical operation, correct skin defects, make your figure slim etc.

POP-ART

Transform your favorite portrait into an original Pop Art masterpiece or amazing personalized pop art portraits.

The benefits of choosing Fix-a-Frame to restore your photos.

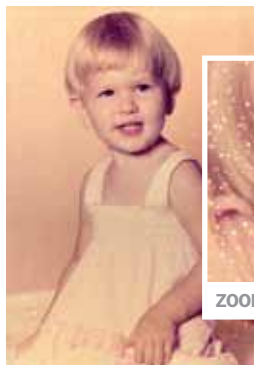

All the restoration work is done digitally. The only thing that will be done to your original photo is scanning. Your original photos will be safely preserved and returned to you when the job is done.

FAQ

How long will it take to get my Photo?

Your photo will be delivered within 7 working days.

Can you use photos from my digital camera or iPhone ?

Yes, we can print images taken on most digital cameras. We can use JPG, PNG, TIF, PSD, RAW images and most picture formats. For best results, make sure your camera is set on the highest resolution (largest size) possible.

I only have an actual photo and not a digital file, can you work from that?

Yes, we can make prints from an actual photo or piece of flat artwork. We will make a high resolution scan and return your photo. We can also email the digital file back to you and it is all included in the price.

I have a large photo can you scan and copy it?

This problem can be solved by scanning the images in parts. We will combine the images and blend them to reproduce the photo at full size.

How can I send you my image?

It is easy. You can email the image to us at fixaframe@optusnet.com.au with instructions and contact details, or burn it to CD/DVD and mail it to us.

My image is too large to be sent by email. What should I do?

You can burn it to CD/DVD or send us through FTP. In case of a FTP we will guide you with all the necessary instructions. Another way to do it is using special FREE software like 7-Zip (PC) or YemuZip (Mac) to compress the file saving considerably less space than usual and then send the image to us by email.

What is the resolution of your printer?

Our printer can print up to an impressive 2880x1440 dpi and deliver a super sharp image with no banding.

Do you offer any guarantees?

Your purchase comes with our 100% satisfaction guarantee and is backed with Epson's guarantee of the longevity of their products.

What is included in your prices?

All reproduction prints include:

- Red eye reduction (if required)
- Image cropping & re-sizing
- Black & White or Sepia conversion (if requested)
